

Who can Care Connection help?

Nevada's Care Connection is a collaborative effort of federal, state and local agencies to provide information and access to long term supports and services. Care Connection serves as a single point of entry into the long-term support system for:

- Nevada's seniors, age 60 or above
- All persons with a disability, any age
- Families and Caregivers
- Anyone planning for future long term care needs

Why is Care Connection important?

Care Connection helps consumers become aware of their choices, empowers them to make informed decisions, and facilitates easy access to public and private long-term supports and services. The goal is to help consumers plan for future needs, but also to more easily access the right services at the right time, regardless of financial status.

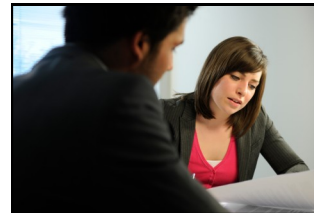

It's never too early to start planning for your long-term care needs!

What services are available?

Nevada's Care Connection services include information and referral as well as benefits access and assistance, but centers on Options Counseling.

Options Counselors help consumers identify current and future needs. In addition to the assessment process, they will assist a consumer in developing a plan for services. Nevada's Care Connection can assist consumers to identify and access services for a variety of needs, including, but not limited to, the following:

- Caregiver support
- Advocacy and Assistance
- Housing
- Personal Care Services
- Transportation
- Independent Living Services
- Health and Medical needs
- Futures Planning
- Employment
- Recreation
- And many more!

what is Nevada's Care Connection?

Nevada's Care Connection is a comprehensive information and service delivery system that aims to assist Nevada's aging and disabled populations access and navigate services available to them, and plan for their long-term care.

Care Connection is comprised of physical sites located throughout the state, as well as a comprehensive website, www.NevadaADRC.com.

The physical Care Connection sites (which are also called Aging & Disability Resource Centers or ADRC's) feature on-site specialists who can provide information and assistance regarding public benefit programs and other services.

As required by the Administration on Aging (AoA) and the State of Nevada Aging and Disability Services Division (ADSD), these sites will provide, at minimum:

- Information and referral
- Assistance and advocacy / Options counseling
- Eligibility and access / Benefits counseling

The comprehensive website offers information on services and programs offered through both ADSD and community agencies.
